

ROAD CLOSING

Section of Monk Drive closes for construction

Read before you travel: Monk Drive Closure

- Monk Drive will be closed for construction this summer for the University's storm water piping replacement project.
- VA Medical Center traffic will be highly impacted.
- We suggest you add 20 minutes to your drive time for possible delays.
- Patients traveling to and from Truman VA should use College Ave and Hospital Drive to access the VA's avenue of flags (see map).
- Watch for electronic message boards directing traffic.
- Valet parking will be available.
- We anticipate this project will be completed by late September.
