

# ROAD CLOSING

## Monk Drive closes for construction

## Read before you travel: Monk Drive Closure

- Monk Drive will be closed for construction this summer for the University's storm water piping replacement project. The final phase began September 6.
- VA Medical Center traffic will be highly impacted.
- We suggest you add 20 minutes to your drive time for possible delays.
- Patients traveling to Truman VA should use College Ave and Hospital Drive to access parking. The entrance for parking is located off Hospital Drive near the north-east corner of the medical center. (see map)
- Watch for electronic message boards and signs directing traffic.
- Valet parking will be available.
- All exiting traffic will be onto Stadium Blvd. westbound out of the temporary south exit. (see map)
- We anticipate this project will be completed by late September.
